## The Ancient Assyrians

*Empire and Army, 883–612 BC*

**Mark Healy**

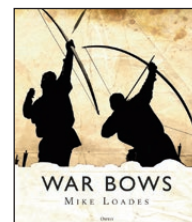

Drawing on 30 years of scholarship, this is a unique, richly illustrated history of the Ancient Assyrian Army and Empire.

From the end of the 10th century to the 7th century BC, the Ancient Near East was dominated by the dynamic military power of Assyria. This was the first world empire, the progenitor of all others.

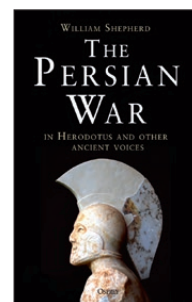

The rediscovery and excavation of the Assyrian civilization in the mid-19th century provided a great deal of visual evidence showing how the Assyrian Army evolved over three centuries. The recovery of wall reliefs and artefacts, coupled with the enormous amount of research carried out by Assyriologists since that time, has revealed the immense impact of the Assyrian Empire on history. Drawing on this significant research, and utilizing the fantastic collections of museums around the world, this lavishly illustrated study presents a unique new history of this fascinating army and empire.

Mark Healy has an academic background in theology, philosophy and politics and was first published in 1990 with *Warriors of the Old Testament* (Firebird). Since then he has written extensively for Osprey, including works on Ancient Egypt, Assyria and Rome. Mark has also published widely on World War II subjects, and has scripted and edited some 30 films on German armour, U-boats and the Luftwaffe.

## 21 Days to Baghdad

*General Buford Blount and the 3rd Infantry Division in the Iraq War*

**Heather Marie Stur**

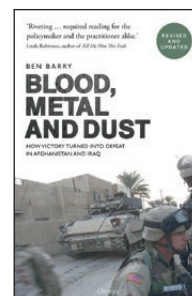

An authoritative military history of the US Army's 3rd Infantry Division in Operation *Iraqi Freedom*, the US-led invasion of Iraq.

In this new history, based on exclusive, extensive interviews with General Buford Blount himself, Dr Heather Stur describes the build-up to the invasion, the commitment of the division to Kuwait, the invasion of Iraq and the three weeks of violent desert conflicts on the way to Baghdad before the siege and battle for the city itself, and the 'thunder runs' that saw its fall to US forces.

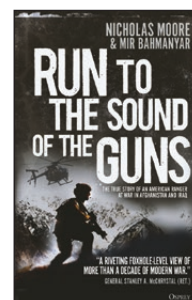

*21 Days to Baghdad* illustrates the long reach of the US military, the limitations of nation building in the wake of war, and the tensions between policymakers in Washington, DC, and troops on the ground over the purpose and conduct of the US invasion of Iraq.

Dr Heather Marie Stur is a professor of history at the University of Southern Mississippi and a senior fellow in USM's Dale Center for the Study of War & Society. She is the author of several books and her articles and op-eds have been published by the *New York Times*, the *Washington Post*, the BBC, the *National Interest*, the *Orange County Register*, *Diplomatic History*, *War & Society*, and other journals and newspapers.

## Nautilus to Columbia

*70 years of the US Navy's Nuclear Submarines*

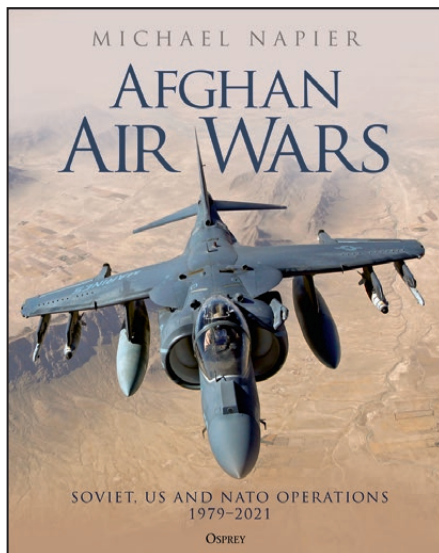

**James C. Goodall**

A highly illustrated history of the US Navy's nuclear submarine program, from the postwar years to the 2020 Columbia-class SSBNs.

The commissioning of the very first nuclear-powered attack submarine USS *Nautilus* (SSN 571) in 1952 was the culmination of a military program to develop a totally new method of propulsion, and one that revolutionized the way that submarines operate.

Expert author and photographer James C. Goodall tells the story of the Nuclear Navy from its origins up to the present day, covering more than 220 submarine hulls built and delivered to the US Navy, from the USS *Nautilus* through to the Navy's newest class of submarine, the Columbia-class ballistic missile submarines. It includes more than 1,300 images from official and archive sources, as well as the author's own personal collection, some of which have never been published before.

James C. Goodall is a published author with 27 books in print. He is a recognized authority both on low-observable aircraft, such as the F-117, B-2A, the Lockheed 'twins' (F-22 and F-35) and the Lockheed Skunk Works family of Blackbirds, and the US Navy's fleet of modern-day fast attack and ballistic missile submarines. He has been photographing and writing about 'spooky' military aircraft, naval ships and submarines for the past 35 years.

## Afghan Air Wars

*Soviet, US and NATO operations, 1979–2021*

**Michael Napier**

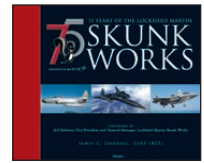

Michael Napier details the critical role of air power in the skies over Afghanistan, from the ten-year occupation by the USSR in the 1980s through to the US and NATO campaign from 2001 to 2021.

US and allied Coalition, strongly supported by air power, invaded Afghanistan in late 2001 in response to the Al Qaida attacks on 9/11. What began as a small-scale operation of 2,500 troops with the limited objective of destroying Al Qaida became ever larger, growing to over 100,000 troops ten years later. This experience matched that of the Soviets after their invasion in late 1979, when they saw a massive increase in resistance by Mujahidin.

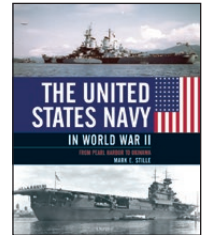

*Afghan Air Wars* is richly illustrated with over 240 images – both official photos and privately taken, in-theatre images which have not been previously published. It also includes first-hand accounts by aircrews involved to create a unique and comprehensive picture of the part played by air power over Afghanistan in the last 40 years.

Michael Napier is an experienced author with ten published titles to his name, five of which have been published by Osprey, including *The Royal Air Force: A Centenary of Operations*, *In Cold War Skies*, and *Korean Air War*. He is an ex-RAF Tornado strike/attack pilot who saw front-line service during the Cold War as well as combat experience over Iraq.

## To Besiege a City: Leningrad 1941–42

Prit Buttar

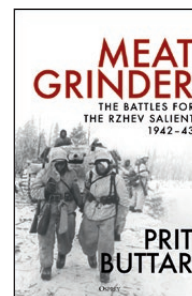

A ground-breaking history of one of the greatest ever sieges, masterfully brought to life using original Russian and German source material.

This new history of the first two years of the crucial battle for the heart and soul of Russia is the first in over a decade and also the first to look comprehensively at the wider military strategies of both sides. At a huge cost, the Red Army and the civilian population of Leningrad ultimately endured a bitter 900-day siege, struggling against bombing, shelling, and starvation. Throughout the siege, Soviet forces tried to break the German lines and restore contact with the garrison.

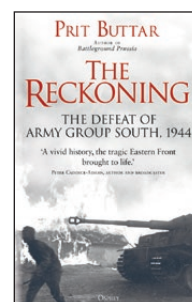

*To Besiege a City* charts the first of these offensives which began in January 1942 and was followed by repeated assaults. Acclaimed Eastern Front historian Prit Buttar details how although the Red Army suffered huge casualties in the swampy and forested terrain, the German infantry divisions were also steadily eroded. The echoes of the battle persist to this day, helping to define both a country and its politics. There is no better time to fully understand this history.

Prit Buttar is an established expert on the Eastern Front in 20th-century military history. His critically acclaimed books have been translated into Polish, Lithuanian, Estonian, Finnish, Italian, Hungarian and Chinese. Prit originally studied medicine at Oxford and London before joining the British Army as a doctor.

## The Convoy

*HG-76: Taking the Fight to Hitler's U-boats*

Angus Konstam

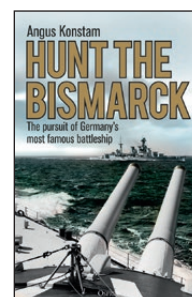

*The Convoy* represents a fresh approach to the story of the Battle of the Atlantic. It is also the first to deal with the more spectacular story of *HG-76*, a major turning point in the naval war.

In December 1941, just a week after Pearl Harbor, *HG-76*, a convoy of 32 merchant ships, left Gibraltar bound for Liverpool. Commander 'Johnnie' Walker had the task of protecting them. He certainly had his work cut out, as a German wolfpack of U-boats was lying in wait and during the convoy's 2,000-mile voyage it would be continually shadowed by enemy U-boats and aircraft, and attacked with relentless ferocity.

Drawing on reports and accounts from both sides, award-winning historian Angus Konstam vividly describes the epic battle that enveloped *HG-76* as it headed through the Atlantic. *The Convoy* combines the story of the technical and tactical developments that won the Battle of the Atlantic for the Allies, with a narrative that reveals both the terror and the stubborn determination that defined the experiences of those who served on convoy duties.

Angus Konstam is a widely published and highly respected military and naval historian, with numerous books to his credit. A former Royal Naval officer, maritime archaeologist and museum curator, he is also a Fellow of the prestigious Royal Historical Society.

## Victory to Defeat

*The British Army 1918–40*

Richard Dannatt & Robert Lyman

A compelling history of the decline of an army from victory in 1918 to defeat in 1940 and why this happened. A salutary warning for modern Britain.

The British Army won a convincing series of victories in the closing stages of the First World War. But by 1939 the British Army was an entirely different animal. The hard-won knowledge, experience and strategic vision that delivered victory after victory between 1916 and 1918 was lost. In the inter-war years there was plenty of talking, but very little focus on who Britain might have to fight, and how.

*Victory to Defeat* is a captivating history of the mismanagement of a war-winning army. It is also a stark warning that we neglect to understand who our enemy might be, and how to defeat him, at the peril of our country. The British Army is now to be cut to its smallest size since 1714. Are we, this book asks, repeating the same mistakes again?

General The Lord Dannatt GCB MC is the UK's foremost military commentator, frequently appearing on television and radio and in newsprint, most recently on the Russian invasion of Ukraine and its implications for the West.

Robert Lyman is one of Britain's top military historians. He spent 20 years in the British Army and he is currently a Research Fellow at the Changing Face of War Centre, Pembroke College, University of Oxford.

## With My Shield

*The Experiences of an Army Ranger in Somalia*

James Lechner

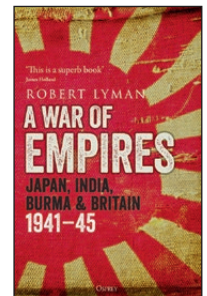

The inside story of the most elite soldiers in the world, surrounded and outnumbered 100 to 1, fighting during a raid in Somalia in 1993.

In 1993, Lieutenant James Lechner is chosen to be part of the top-secret TASK FORCE RANGER, which is deployed to Somalia to capture insurgent leader Mohamed Farah Aideded. After weeks on the ground and conducting raids in the city, the Task Force is called upon to conduct a daring daylight mission into the heart of Aideded's territory. During the raid, one of the Task Force Black Hawk helicopters is shot down, and Lechner and his comrades find themselves fighting to rescue the downed crewmen and save their own lives.

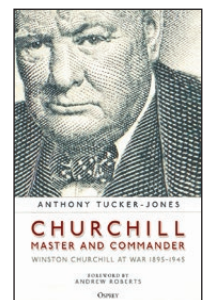

This first-hand account tells the story of how these elite warriors were able to stand together and prevail against incredible odds. Lechner's story is not only about his experiences during the Battle of Mogadishu, but also his journey as a young American who enlists in the US Army during the Cold War.

James Lechner is a retired US Army infantry officer. Jim served in the US Army for 27 years, beginning as an enlisted infantryman in the Army National Guard. He is currently a television war correspondent for Newsmax covering the war in Ukraine. He is also a history professor for Liberty University and the military sales director for Radical Defense.

## Agincourt

*Battle of the Scarred King*

Michael Livingston

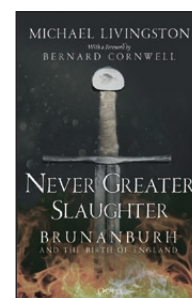

This groundbreaking study by Michael Livingston presents a new interpretation of one of the most famous battles in English history.

King Henry V's victory over the French armies at Agincourt on 25 October 1415 is unquestionably one of the most famous battles in history. From Shakespeare's 'band of brothers' speech to its appearances in numerous films, Agincourt rightfully has a place among a handful of conflicts whose names are immediately recognized around the world.

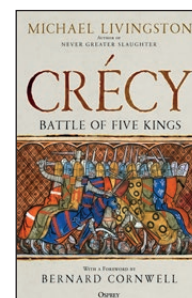

Michael Livingston goes back to the original sources, including the French battle plan that still survives today, to give a new interpretation, one that challenges the traditional site of the battlefield itself. It is a thrilling new history that not only rewrites the battle as we know it, but also provides fresh insights into the men who fought and died there.

Dr. Michael Livingston teaches the military and cultural history of the Middle Ages at The Citadel, the Military College of South Carolina. He is the author of *Medieval Warfare*, *The Battle of Crécy: A Casebook*, winner of the 2017 Distinguished Book Award from the Society for Military History, *Never Greater Slaughter: Brunanburh and the Birth of England* (Osprey, 2021) and *Crécy: Battle of Five Kings* (Osprey, 2022).

## 2SAS

*Bill Stirling and the forgotten special forces unit of World War II*

Gavin Mortimer

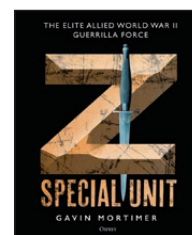

Drawing on declassified files and interviews with veterans, this is a fascinating history of Bill Stirling and 2SAS – pioneering founders of modern special forces.

David Stirling is the name synonymous with the wartime SAS, but the real brains behind the operation was in fact Bill Stirling, David's eldest brother. Bill was described in the SAS War Diary as a 'man from the shadows'; it was an apt description for, unlike his attention-seeking brother, Bill shunned the spotlight. Now for the first time the truth – and the triumph – of 2SAS is revealed.

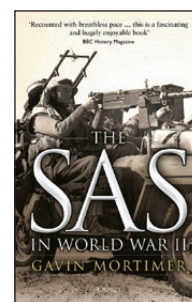

Fully illustrated with rare and previously unpublished photographs, this compelling history details how 2SAS fought with ingenuity and aggression, from Italy and then into France before heading through Holland into Germany. Their feats have been overshadowed by the many books that have focused on David and 1SAS. 2SAS corrects this oversight, revealing that the real innovator was Bill Stirling – the true pioneer of Who Dares Wins.

Gavin Mortimer is a writer, historian and television consultant whose groundbreaking book *Stirling's Men* remains the definitive history of the wartime SAS as a whole. He has also written histories of the SBS and the LRDG.

## Desert Armour

*Tank Warfare in North Africa: Gazala to Tunisia, 1942-43*

Robert Forczyk

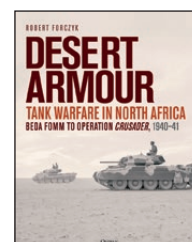

Robert Forczyk covers the development of armoured warfare development in North Africa from Rommel's Gazala offensive in 1942 through to the end of war in the desert in Tunisia in 1943.

In this, the second volume of a two-part study, best-selling author Robert Forczyk explores the course of armoured warfare in the latter stages of the War in the Desert. It tells the story from the Gazala offensive in May 1942 that drove the British forces all the way back to the Egyptian frontier and led to the fall of Tobruk, through the pivotal battles of El Alamein to the final Allied victory in Tunisia. He examines the armoured forces, equipment, doctrine, training, logistics and operations employed by both Allied and Axis forces throughout the period.

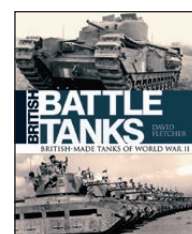

Fully illustrated throughout with appendices analysing tank data, tank deliveries in-theatre and orders of battle, this book goes back to the sources to provide a new study of armoured warfare in the desert.

Robert Forczyk has a PhD in International Relations and National Security from the University of Maryland and a strong background in European and Asian military history. He retired as a lieutenant colonel from the US Army Reserves having served 18 years as an armour officer in the US 2nd and 4th infantry divisions and as an intelligence officer in the 29th Infantry Division (Light). Dr Forczyk is currently a consultant in the Washington, DC area.

## Battle for the Island Kingdom

*England's Destiny 1000–1066*

**Don Hollway**

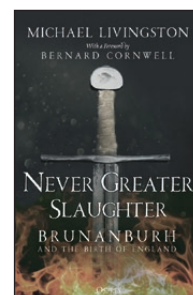

A rich history of the years leading up to 1066 when Vikings, Anglo-Saxons and Normans vied for the English crown. A tale of loyalty, treason and military might.

In a saga reminiscent of *Game of Thrones* and *The Last Kingdom*, *Battle for the Island Kingdom* reveals the life-and-death struggle for power which changed the course of history. The six decades leading up to 1066 were defined by bloody wars and intrigues, in which three peoples vied for supremacy over the island kingdom.

In this epic retelling, Don Hollway recounts the clashes of Vikings, Anglo-Saxons and Normans, their warlords and their queens. It begins with the Viking Cnut the Great, forging three nations into his North Sea Empire while his Saxon wife Aelfifu rules in his stead and schemes for England's throne. Her archenemy is Emma of Normandy, widow of Saxon king Aethelred, claiming Cnut's realm in exchange for her hand in marriage. In the shadows is Godwin of Wessex, playing all sides to become the power behind the throne until his son Harold emerges as king of all of England. And all this time watching from across the water is William, the Bastard, fighting to secure his own Norman dukedom, but with an eye on the English crown.

Don Hollway is an author and historian. His first book, *The Last Viking*, is a gripping critically acclaimed history of King Harald Hardrada. He is also a classical rapier fencer and historical re-enactor.

## Lockheed Blackbird

*Beyond the Secret Missions – The Missing Chapters*

**Paul F. Crickmore**

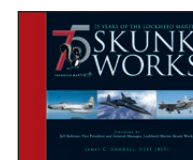

Using recently declassified information, globally renowned expert Paul F. Crickmore updates his definitive account of the SR-71 Blackbird.

The Lockheed SR-71 Blackbird ranks as one of the most elegant, sleek and powerful aeroplanes ever designed. But it was not built to be admired – it was built not to be seen at all. The high-altitude aerial reconnaissance sorties it was to perform were top secret and carefully concealed from public knowledge. However, as the aircraft have become museum pieces and details of their work declassified, the whole story of their design and operation can finally be told.

This updated edition of Paul F. Crickmore's classic book is based on extensive documentation and images declassified by the CIA covering the A-12 Oxcart programme. These extremely significant documents range from discussions at the highest levels of the US government concerning the rationale for Oxcart's development and eventual deployment, to extremely detailed intelligence data gleaned from each of the 29 operational missions flown during Operation *Black Shield*.

Paul F. Crickmore is the author of the much-acclaimed *Lockheed Blackbird: Beyond the Secret Missions*. He was commissioned to write his first book for Osprey 35 years ago and since then has written 20 books. He is also an honorary member of several A-12 and SR-71 veterans' associations.

## Going Downtown

*The US Air Force over Vietnam, Laos and Cambodia, 1961–75*

**Thomas McKelvey Cleaver**

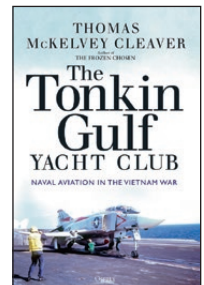

This vivid narrative history tells the full story of the US Air Force's involvement in the wars in the air over Vietnam, Laos and Cambodia.

The involvement of the US Air Force in the Southeast Asian Wars began in 1962 with crews sent to train Vietnamese pilots, and with conflict in Laos, and finally ended in 1972 with the B-52 bombing of Hanoi, though there were Air Force pilots unofficially flying combat in Laos up to the end in 1975.

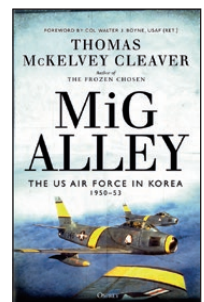

This aerial war was dominated by the major air operations against the north and carried out in the face of a formidable Soviet-inspired air defence system bristling with anti-aircraft guns and SAM missile sites. Beyond this, the US Air Force was intimately involved in secret air wars against Laos and Cambodia – one cannot speak of a war only in Vietnam regarding US Air Force operations. The war the Air Force fought was a war in Southeast Asia.

Following on from the same author's *The Tonkin Gulf Yacht Club*, which told the story of the US Navy's involvement in the Vietnam War, *Going Downtown* completes the picture. Featuring a wide range of personal accounts and previously untold stories, this fascinating history brings together the full story of the US Air Force's struggle in the skies over Southeast Asia.

## When the Shooting Stopped

*August 1945*

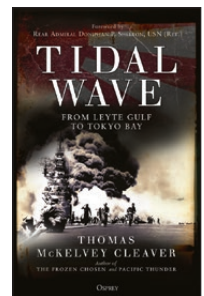

**Barrett Tillman**

Victory in Japan Day (VJ Day) on August 15, 1945 officially marked the end of World War II, but conflict continued throughout the month. This fascinating title explores the final weeks of the war, when the shooting finally stopped.

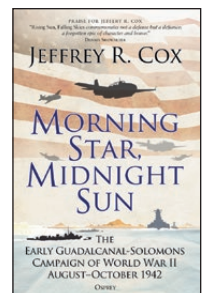

Rumors wafted on global winds throughout the first half of August 1945: Tokyo was on the brink of surrendering; Tokyo was sure to fight to the bitter end. Contrary to popular perception, the war did not conclude with the dropping of two nuclear bombs. On the very day that the second atomic bomb began its ominous descent over the city of Nagasaki, a Soviet juggernaut was steamrolling into Japanese-occupied Manchuria in Operation *August Storm* – a campaign that continued until the third week of August and cost tens of thousands of lives.

This fascinating new history tells the dramatic story of the final weeks of the war, detailing the last brutal battles in the air, on land and on the sea with evocative first-hand accounts from pilots and sailors caught up in these extraordinary events. Barrett Tillman then expertly details the first weeks of a tenuous peace and the drawing of battle lines with the forthcoming Cold War as Soviet forces concluded their invasion of Manchuria. *When the Shooting Stopped* retells these dramatic events, drawing on accounts from all sides to relive the days when the war finally ended and the world was forever changed.

Whether you have only one or the other, you'll be able to play *Undaunted* for the first time in a four-player mode, or test your mettle in a solo mode by Dávid Turczi and David Digby.

Requires a copy of *Undaunted: Normandy* or *Undaunted: North Africa* to play. Cards from both games now included to ensure consistent card backs.

# Sankoré

In *Sankoré: The Pride of Mansa Musa*, players manage one of the Sankoré Madrasah's prestigious schools, tasked by the emperor Mansa Musa with spreading knowledge throughout West Africa, even as the great university is raised around them.

By enrolling and graduating your pupils, teaching classes, adding to your curriculum, and filling the great library with books, you will advance knowledge in four main disciplines: theology, law, mathematics, and astronomy. Once construction of the university is complete, the value that the empire places on each discipline will dramatically affect how you score the knowledge you have passed on.

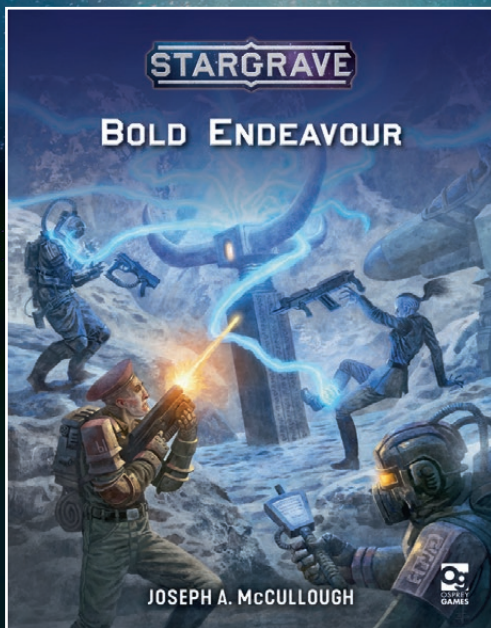

In a dedicated solo mode, you will be competing against a distinguished scholar, a passionate and ambitious academic controlled by an elegant automated system.

Can you navigate the corridors of academic competition and bring renown to Mansa Musa's prized university?

Just beyond the rim of what was once 'civilized space' lies the vast, colourful expanse of the Erebus Nebula. Its protostars and wandering planets once made it the subject of intense scientific expeditions. None of these expeditions ever returned and the nebula was largely forgotten. Until now. New signals originating from within the nebula convey incredible scientific possibilities, any one of which would be worth a fortune if complete. Blinded by the potential wealth to be won, independent crews flock to the Erebus Nebula, heedless of the perils it may hold...

In this supplement for *Stargrave*, players chart a course into a mysterious region of space where not all the normal rules of physics apply. Crews will brave a host of new scenarios, facing terrifying dangers and making first contact with strange alien species. If they are fortunate, they will survive these encounters and may even acquire new technology and new recruits.

Far from the battlefields of Europe, another war is being fought.

In the vast lands of North America, Britain and the United States clash once again and, in the shadow of this conflict, the otherworldly Harvestmen pursue their devious plans, feasting on the rage and terror of mortals. In the face of this menace, however, brave folk, seconded from the military or recruited from the local populace, band together to take the fight to the sinister Harvestmen and their minions.

*Canada* is a supplement for *The Silver Bayonet* that brings players and their officers across the Atlantic and straight into the War of 1812. It offers new scenarios, solo and cooperative as well as competitive; rules for recruiting US units; and creatures and challenges drawn from Canadian history and folklore.

**1916: A World Transformed.** As the Great War raged, the Moon fell from its orbit. Seas shifted, uncovering new lands and revealing what tide and time had concealed. Long known as a potent occult power, the Moon's descent also heralded the terrifying resurgence of magic. Long-forgotten gods and spirits began to stir and old traditions found new strength.

**1918: A War Transformed.** Rival nations battle on new fronts, seeking dominance with weapons of spell, song, and sacrifice. Thrust to the surface, Doggerland, the ancient bridge between Britain and Europe, becomes a crucial battleground in the conflict. In this alien landscape, raiding parties pick through the ribs of wrecks and the ruins of lost villages while war machines festooned with totems roll over the brittle bones of long-dead giants.

*A War Transformed* is a skirmish wargame set in a world where World War I was utterly changed by forces far beyond human comprehension. Fast-paced gameplay and a tense initiative bidding system are combined with authentic folk traditions and occult philosophies of the era – it is a game of rifle and relic, of bayonet and belief, of machine gun and magic.

## THE DOOMED APOCALYPTIC HORROR HUNTING

**Author:** Chris McDowall

**ISBN:** 9781472854261

**Illustrator:** Helge C. Balzer

**Price:** £25 / \$35 / CAN \$47

**Available:** August 2023

**Format:** Hardback

Hunger, Hatred, Domination, Oblivion, and Ruin. The world is dying, poised on the brink of falling to one of these great dooms. Factions pursue their own interests, as likely to be the heralds of the world's destruction as they are its saviours. Horrors – monstrous abominations that defy logic, science, and nature – roam the land. Bands of hunters follow bold leaders, seeking out and destroying Horrors, gaining fame as word of their deeds spreads amongst the desperate survivors. Rival bands compete for prestige, clash over ideology, and pose as much of a threat to each other as the Horrors they hunt.

*The Doomed* is a quick-playing, rules-light skirmish wargame in which small warbands of hunters compete to hunt unique Horrors in a bleak sci-fi world. Scenarios are defined by the Horror being hunted and by the Conflict in which the hunt takes place. Each Conflict, meanwhile, provides a distinct set-up for the scenario and a secondary objective that pits the warbands against each other as well as against the Horror. Campaigns build towards a climax, with hunters gaining prestige and renown, offering access to new, unique options for their warband. In the background, the five dooms also grow in power, threatening to deliver their own climax to the campaign if the hunters are not successful enough.

**Price:** £25 / US \$35 / CAN \$47

In Italy, the fight continues! As the Allies push north up the Italian Peninsula, they have encountered heavy resistance from the Axis and their multitude of fortified and defensive lines, slowing the allied advance to a crawl. The 'soft underbelly' of Europe proved to be false, instead it was a 'tough gut'.

This supplement for *Bolt Action*, and the counterpart to *Soft Underbelly*, focuses on the battles ranging from the Gustav Line in 1944 all the way to those of the Gothic Line in 1945, with the breakouts at Anzio and Monte Cassino of particular focus. Containing a host of scenarios to refight these famous battles, along with new units, special rules, and Theatre Selectors, this book contains everything players need to bring an end to the war and liberate Italy.

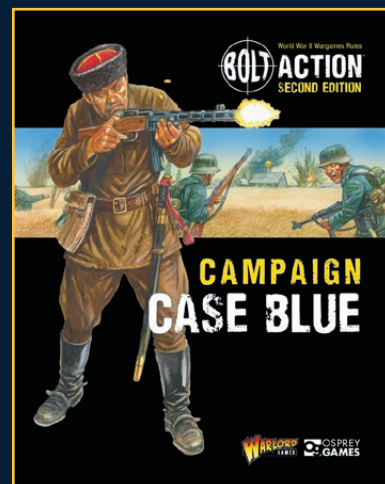

## BOLT ACTION: CAMPAIGN: CASE BLUE

**Available:** October 2023  
**ISBN:** 9781472863690

**Price:** £25 / US \$35 / CAN \$47  
**Format:** Paperback

A new *Bolt Action* supplement covering the Axis offensives through Eastern Ukraine and into the North Caucasus during the second half of 1942. After the failure of *Barbarossa* to utterly defeat the Soviet Union, a new plan was devised, *Case Blue*. This plan involved pushing through the southern Soviet Union to reach the Caucasus and the secure the oil fields that Germany so desperately needed. While initially there was great success and sweeping advances as the autumn began, the Axis advances began to falter in the wake of Soviet resistance and counter attacks, culminating in the battles in and around Stalingrad.

This Campaign Book for *Bolt Action* contains new, linked scenarios, rules, troop types, and Theatre Selectors provide plenty of options for novice and veteran players alike.

## TOMORROW CITY DIESELPUNK ROLEPLAYING

**Author:** Nathan Russell  
**Illustrator:** Biagio D'Alessandro  
**Available:** October 2023

**ISBN:** 9781472849588  
**Price:** £25 / \$35 / CAN \$47  
**Format:** Hardback

Tomorrow City was one of the cities of the future, built to usher in a new age of prosperity, seizing upon scientific achievements at the dawn of the twentieth century. Then came the War. Radium-powered soldiers assembled, diesel-fuelled nightmares rolled off production lines, city fought city, and the world burned in atomic fire.

We survived, barely. Tomorrow City still stands, an oil-stained beacon of hope, part-refuge, part-asylum. Beset by dangers from both within and without, a secret war now rages on its streets. Diesel-born monstrosities stalk the alleyways, air pirates strike from the wastelands, mad scientists continue their dark work, occultists manipulate the city's strange geometry, and secret societies plot in the shadows.

*Tomorrow City* is a roleplaying game of dark science and dieselpunk action. Swift and simple character creation and an easy-to-learn dice pool system places the emphasis on unique personalities and the momentum of the plot. As weary sky rangers, fringe scientists, and radium-powered veterans, you might be all that stands between a better tomorrow and no tomorrow at all.

## URBAN DECAY BEAT 'EM UP ROLEPLAYING

**Author:** John-Matthew DeFoggi  
**Illustrator:** Bob Crum  
**Available:** November 2023

**ISBN:** 9781472855886  
**Price:** £17.99 / \$25 / CAN \$33  
**Format:** Hardback

As night falls over the City, a storm is brewing in the streets below. The gangs have taken over. They rule with an iron fist, their will enforced by armies of thugs and brawlers. Gutters run red. The authorities have either sold out or are stretched too thin to make a difference. Might makes right. You will not tolerate this any longer. Uniting with a crew of like-minded individuals, you head out to reclaim your home, protecting neighborhoods, inspiring others to take a stand, and clashing with gang enforcers as you work your way through their ranks, seeking to cut the head from the snake coiled at the heart of the City.

*Urban Decay* is a roleplaying game of beat 'em up action inspired by classic arcade video games, movies, and comic-books. Players take on the roles of warriors, martial artists, vigilantes, and ordinary citizens, taking to the streets to face the gangs that control the City and to save the people and places they love. The versatile Clash system emphasizes the brutal, gritty street-fights in which these heroes will find themselves. The City itself is built collaboratively, with players working together to define the districts and neighborhoods for which their heroes will go to war.

## PRESSURE

### INDUSTRIAL SCIENCE FICTION ROLEPLAYING

**Author:** Jonathan Hicks

**ISBN:** 9781472858993

**Illustrator:** Nathan J. Anderson

**Price:** £17.99 / \$25 / CAN \$33

**Available:** November 2023

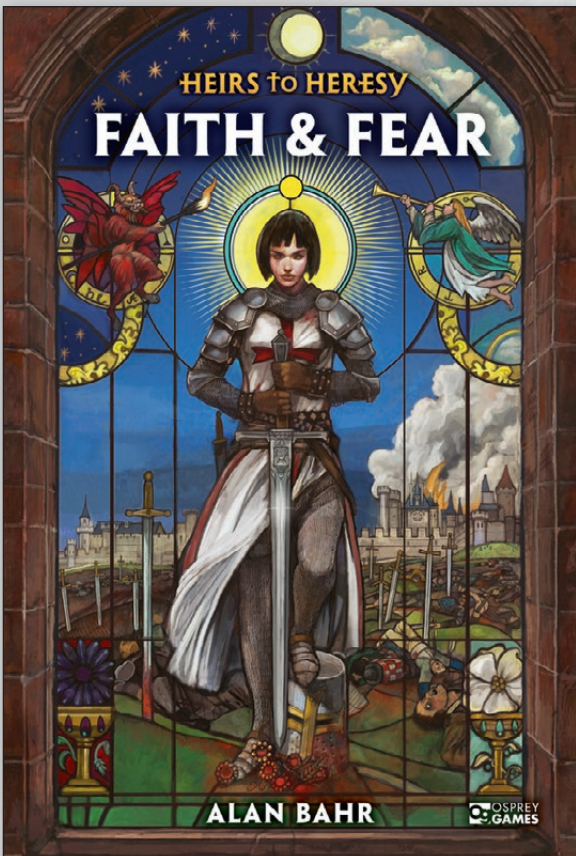

**Format:** Hardback

*Pressure: Industrial Science Fiction Roleplaying* is a rules-light, story-focused game of facing the darkness at the heart of humanity's fragile and claustrophobic existence – both on Earth and among the stars.

An entirely standalone title, *Pressure* also develops and expands upon the mechanics and setting introduced in the *Those Dark Places* roleplaying game.

As highly skilled agents of Special Operations Squads, players are tasked with cleaning up after the Corporations – investigating links to organised crime, neutralising rogue weapons research, negotiating with rebel leaders on orbital stations, and hunting down whatever that black-budget excavation team 'awoke' out in the Procyon Sector...

The universe is a dangerous and hostile place; the Hypercities and the Deep Black alike hide powerful foes. But you have the tools, the training, and the resources to face these dangers... you hope.

## HEIRS TO HERESY: FAITH & FEAR

**Author:** Alan Bahr

**ISBN:** 9781472858412

**Illustrator:** Peter Johnston

**Price:** £17.99 / \$25 / CAN \$33

**Available:** December 2023

**Format:** Hardback

A supplement for *Heirs to Heresy*, introducing new knightly orders, mighty relics, mysteries, and foes both mortal and supernatural.

The shadow that hangs over Europe, already dark, is growing ever darker. Branded a heretic and turned fugitive, you are on the run. Your enemies are many, your friends few... and trust scarce. The knightly orders with whom you once fought side-by-side – the Hospitallers, Teutronics, and others – are potential allies but, having witnessed your cruel fate, do they still keep faith with the Templars or have they fallen to doubt and fear?

*Heirs to Heresy: Faith & Fear* is a supplement for the roleplaying game of the fall of the Knights Templar that unfolds like the labyrinthine Templar conspiracies themselves. Previously unknown foes stalk city streets and forest paths alike, while unexpected allies come to the fore in the form of new playable knightly orders. Ancient relics and new mysteries abound, allowing players to dive more deeply into this dark, mythic Europe, while rules for strongholds and spy networks present them with opportunities to exploit or challenges to overcome.
